

ASCA Member Discussion Forum Summary
2021 Annual Conference
Reconciliation
ASCA Member Perspectives

- More needs to be done for the older generations that do not know about the reasons reconciliation is needed. Educate the kids, for sure. But their parents and grandparents need it too.
- My kids are understanding more about reconciliation than I ever learned in school. I'm happy about this, but need to learn much more myself. Hoping to get recordings of those sessions!
- I too am very impressed with the reconciliation efforts being made in our school. It's pretty neat when my kids can help teach me!
- I was so moved by the Roots of Reconciliation presentation. I think that our school has a lot of work to do. A land acknowledgement on the wall isn't cutting it. We can and must do more!
- I'm going to try to post links to resources from 'Our Legacy: Metis Culture and Perspective' and 'Siha Tooskin Knows... Stories of a Young Nakota Boy for Reconciliation' in this thread.
- If, for some reason that doesn't work, please go to those sessions in the schedule, click on them and scroll down to 'documents'. You will find amazing resources there.
- Books by Wilson and Charlene Bearhead. You can also access a FREE learning guide at this website. <https://www.portageandmainpress.com/product-category/indigenous-literature/siha-tooskin-knows-series/>
- Classroom resources on Metis culture. <https://www.rupertsland.org/teaching-learning/resources/>
