The Government of Alberta recognizes the value of parents and the community in the education of children, and requires school councils in every school operated by a school board in Alberta.

School Councils provide a method for parents in the school community to consult with, and offer advice to, the principal and the school board.

Established school councils:

- focus on what is best for all students in the school
- consider the interests of all school stakeholders
- maintain and reflect the culture of the school
- represent the parent voice in the school community

The provincial organization of school councils:

- Brings the parent perspective on education issues to government and others;
- Provides resources and support to enhance school council effectiveness;
- Promotes the involvement and engagement of parents in education;
- Works with education groups and government to promote excellence in public education;
- Provides research and timely information about education to school councils.
